## Vineyard Notes

The plot is situated above Fuissé in the middle part of the slopes, facing south by southeast. The steady slope, with a gradient of about 23%, enables ideal drainage of the soil and provides concentration and opulence to the wine.

## Tasting Notes

The "Vignes Blanches" (White Vines) lives up to its name. It features a very pure bouquet, with delicate fruitiness, floral notes and a lovely iodized minerality, all well balanced because of the well-controlled ageing. This finely buttery wine, oozing with the freshness of Chardonnay, also reveals lovely scents of lime, liquorice, menthol and fresh hazelnuts.
